Beantown Trolley / Gray Line
Randolph, MA 02368

Dear Loretta,

I would like to personally let you know that I have been very happy with the fuel delivery and service that your company, East Coast provides to our motorcoach and trolley company.

We currently operate 23 luxury motorcoaches and 22 Beantown trolleys making our company one of the largest privately owned in the Northeast. We operate seven days per week, 22 hours per day.

Your delivery drivers are both courteous and professional and know their job. I can always trust that you will be there when you say you will and in today's extremely fast paced environment that is important to our overall operations as we must be very efficient in our business.

Since 2002, we never had a bus go down or interruption of service because of any issue regarding your services. In the winter when we use premium road force diesel or in the summer, your product has always been reliable and excellent quality. May I say that we do appreciate how you run your business and I would highly recommend your services to anyone.

Thank you for the great service.

Regards,

Lawrence A. Anzuoni, Jr.
President
